

# Water Color Pollinator

*Wyoming Ag-tivity*

## Activity Procedure:

1. Stamp the filters with a variety of designs and color brightly with the markers.
2. Lay the filter flat and gently slide into a clothespin.
3. Fan out each side of the filter to resemble a butterfly's wings. Lightly mist with water.
4. Twist an 8 in. piece of pipe cleaner around the neck of butterfly to make the antennas. (see below)
5. Lay flat to dry
6. Hang them from the ceiling with thread, or glue a magnet on the back to stick them on the refrigerator.

## Materials

- Round paper coffee filters
- Washable markers
- Stamps & ink pads
- Old fashioned clothespins
- Pipe cleaners
- Water & spray bottle

## Estimated Time

30 Minutes

Grades K-6
